REASONS FOR ALLOWANCE

Response to Amendment

The amendment after Final Action filed September 5, 2007 has been received and made of record. In response to the Final Office Action, the Applicant has canceled rejected claims 19-24. The Applicant had previously canceled claims 2, 8, 9, and 13. Therefore, as indicated in the Final Office Action mailed July 5, 2007, claims 1, 3-7, 10-12, and 14-18 are considered allowable over the prior art, as will be set forth below.

Allowable Subject Matter

Claims 1, 3-7, 10-12, and 14-18 are allowed.

The following is an examiner's statement of reasons for allowance:

In regard to independent **claim 1**, as stated in the previous office action, the prior art was not found to teach or reasonably suggest, in conjunction with the additional limitations of claim 1, a preprocessor that includes a programmable sampling filter connected to the non-uniformity corrector, a modular transformer connected to the programmable sampling filter, and a ditherer connected to the modular transformer.

As for **claims 3-7, 10-12, and 14-18**, these claims depend either directly or indirectly from allowable claim 1, and are thus considered to be allowable over the prior art as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
